CHICAGO, October 4.—Business to-day on the board seemed to be more active, although no unusual excitement, but a decline in prices stimulated the trading. Foreign orders were very good. The crops are now about harvested, and September, has dwindled down considerably, and mounts to only a small percentage. The receipts to-day were only moderate, though ? larger ones are promised soon from all sections. The stock of clear rib sides now in store is very small compared to other dates, hence the deliveries. The shipments have been large and the demand far in excess, for nothing but old stock can be delivered in this year's contracts, hence a manipulation is almost a surety. Hogs, though, come in plentifully, and by the 1st of Jan-

uary there will be a large surplus of all hog products to tender on maturing deals.
